Lhere are such things...

We have always looked forward to a "better world."

It has been easy to sit around and think up "better worlds."

But while we were sitting around, a gang of evil men plunged us into a worse one,

They caught us "taking it easy."

Now we have to go about it the hard way.

Now we know that "better worlds" have to be worked for-tirelessly.

They have to be fought for-courageously.

They have to be built-and solidly.

We have always believed that, apart from a few criminals, the great mass of mankind wanted a world in which Goodness, Truth and Justice could flourish.

Now we know that whole nations are fighting to maintain a reign of terror, in which Evil and Lies and Brutality are the ruling forces.

They want that kind of world.

They want a world in which Faith, Hope and Love are blacked out.

They want a world in which Liberty, Equality and Fraternity are banished.

We have always believed that such things as Love and Beauty and Brotherhood could never be bought.

But now we know they must be bought and paid for. They are not just words.

There are such things.

And we must guard them, as we would our most priceless possessions, against a ruthless, plundering enemy.

We must buy our own share in a new world where these things will shine again.

Many must pay with their lives, but your share is less costly.

AC. J. M.Bain, and the state of CONCERNING THE COMPULSORY **BARGAINING BILL!**

- It will percent anyone who is not a member of one of these unions from earning a living in industry.
 It will place the control of Oniario's entire industrial system under the domination of these two big unions controlled from the Unified States.

ITS EFFECT ON THE WORKER

- He must pay one to two dollars a month union dues.

 He will be dominated by one of the two big unions
- He will forfeit his rights to organize as most Ontario plants are now organized.
- He must sacrifice individual harmonious relations with
- He may get higher wages (if the Government con-nents), but higher wages must eventually mean higher prices for the necessities of life. Inflation begins here!

ITS EFFECT ON THE FARMER AND THE GENERAL PUBLIC

if the wage and price ceilings are punctured, farmers and the general public will have to pay higher prices for everything they buy.

If the price ceiling holds and the wage celling breaks, many products now available will disappear, since manufacturers will be unable to produce them without

This all adds up to inflation that will ruin the value of your savings, bank account, your life insurance policies, and the dellar bill in your pocket.

ITS EFFECT ON THE WAR EFFORT

- It will generate class strife and class haired at a time when all Canadians must pull together.
- Bi will create dimatisfaction among the workers if union demands are not met—or it will force the Government to break anti-inflation laws which now protect the whole Canadian public.
- It will increase strikes in war plants, transpertation and essential civilian indestries. All the recent major strikes have been instigated by one of the big unions.

ITS EFFECT ON THE MANUFACTURER

ITS EFFECT ON THE TWO BIG UNIONS

It gives them does of a deltar or two deltars a month. from a million workers in Ontario. This gives them a revenue of ni least ter million deltars a year, for which they assume no obligation or responsibility.

And remember, union books are not subject to audit Why should unions need this much money?

"I used to think twould say be will use to spend my life.
His speech was oh, so gentle, and so tall and straight was he I never dreamed how terrible he'd prove some day to be.
I never dreamed I'd wake at night to give

"When life was all before us and on single path up-hill, I never dreamed the time would come I'd wish his voice were still. And when, 'for better or 'for worse' to cling to him I yowed,

I never dreamed so nice a man could

Now night long through I elbow him until
he's blue and black
And say 'Turn over, darling, please,

At times, it's like a whistle's shriek, at times a grunt and groan And then a buzz saw at a knot, and then a fearful moan! There

MAXWELL HOUSE COFFEE

This new cound is witable for all ways of making coffee-drip method, boiling or perce-lating. If using a drip or glass type coffee maker-you may prefer to put the liquid through the ground coffee an extra time.

Maxwell House is so delicious be It's blended from carefully selected extra-flavor sloes. Each adds its own particular qualities to a sky matchless blend.

I NCREASE your coffee enjoyment by drinking Maxwell House. You'll find its smooth, full-bodied goodness wholly satisfying. For wartime reasons Maxwell House is now, packed in bags only, in an All Purpose Grind, and at a lower cost to you.

A drop in the bucket?

75,000 rivets like this go into one bomber . . .

If one were left out, the plane might still fly . But it would be weaker by that much!

A workman who left out one rivet or two rivets from every plane would be arrested as a saboteur . Just one or two rivets : out of 75,000!

Yes, victory depends on a lot of small things. Each just a drop in the bucket. Yet, as drop follows drop, the bucket is filled.

Every rivet, every bullet, is important.

And every dollar of the new Victory Loan is important Every dollar you lend Canada!

Even one \$100 bond will pay for two complete flying outfits or 3,000 bullets.

It will buy two sub-machine guns or three hospital beds. Or buy half a ton of bombs

to drop on Berlin!

So don't say, "they don't mean me." Don't say,
"there's not much <u>I</u> can do about it."
Don't leave it all to the other_fellow!

There are two ways to buy Victory Bonds ...

With cash already saved or out of earnings. Do both if you can! But plan now to buy bonds anyway!

SACE OF MONTICELLO

TO HELP YOU SAFEGUARD YOUR WAR SECURITIES

You have made a patriotic investment in Victory Bonds . . . or War Loan Bonds . . . or War Savings Certificates . . . perhaps all three . . . to help your country in the war . . . and to help assure your after-war future.

To enable you to preserve your war securities from danger of loss by fire or theft, Canada's Chartered Banks offer a safekeeping service.

VICTORY BONDS and WAR LOAN BONDS-Take them to your bank ... to any branch of any chartered bank . . . the bank will put them into safekeeping for you, will clip your coupons when the interest falls due, and will deposit the money to your name . . . If you haven't a bank account you can authorize the bank to open one for your convenience.

The total charge for this service and Barekseping is only 25 cents a year on bonds (no metter low many) up to \$250 . . . one-tenth of one per cent on amounts over \$250.

WAR SAVINGS CERTIFICATES - You can lodge them also with your bank ... which will take them into safekeeping and for just one small charge cover the whole of the time (or any part of it) from purchase to maturity. Here is all it will cost you - not just for one year - but for 71/2 years:

MAKE NO DOUBT OF IT. We're on the offensive this year. The goal of Victory today is nearer than ever before. But it won't be won alone by soldierly courage or good generalship or even good luck. It will be won only if these qualities are backed with every dollar of financial strength Canadians can mustes.

Can't you realize this? Can't you see that, if it took so many millions of dollars before just to maintain a stout defence, it's going to take

more...millions and millions more...to fight offensive warfare. And that means money from you ... loaned on your own country's guarantee that you'll get every cent of it back.

Soon you'll be asked to buy Victory Bonds ...to buy as you've never bought before.

Make your plans NOW. Pledge yourself that
you'll hold nothing back. Determine to buy and buy...to the point of self-denial. Victory is in your hands.

Income Tax Form

Income Tax Form
Doubt has been expressed by the Doninion Minister of Ewenie that an income

form is applicable to taxpayers with incomes up to \$3,000.

Montreal Gazetic's comment is: "Tax forms are complicated because the facome tax is levied in a complicated way. If and when the tax is simplified, the forms will not matter."

"I'm only suggesting, Son, that you might WANT to buy Victory Bonds. I want you to decide. Deciding for your-self is part of becoming a man. You can decide wisely only when you know the facts—know why Victory Bonds are good for you to have, or for anyone. Every one of our family CAN tor you to have, or for anyone. Every one of our many Child buy Victory Bonds. You are starting to earn money. Sister, is well paid now. And even Mother finds ways of saving to buy Victory Bonds.

DO YOU UNDERTAND WHAT A VICTORY ROMD BY A Victory Bond is the promise of the Dominion of Canada to repay in cash the full face value of the Bond at the time stipulated, with halfyearly interest at the rate of 3% per annum until maturity.

A Victory Bond is the affest investment in Canada. The entire resources of the Dominion stand behind it. Canada has been issuing bonds for 75 years, and has never failed to pay every dollar of principal and interest.

A Victory Bond is an asset more readily converted into cash than any other security.

THE ATTACHED TO SACH SOME When you get it, in the form of dated coupons. Coupons are cash on the date due, or my time after that. When you clip a coupon from, let's say a \$100 bond, it is just like cutting off \$1.50 to put in your pocket and you get that amount every six months.

YOU CAN SET YOUR MONEY ANYTHMS for your Victory Bond, if you really need it. Just take it into any bank and get the cash-Naturally your need should be very urgent before you will take your money out of active service in wartime. But if you say you want it, you get it. I hope you won't need it badly enough to want it. Keep the bond until its maturity, when Cenada will repay to you the amount you have losned.

IT IS AMY TO SUT A VICTORY SOME . . . as little as \$5 down with your application . . . and the balance over the next successive

Remember that money in Victory Bonds really fights in the line. The more dollars that we can put in the line, the sooner we can win this war and start enjoying things again. It is going to cost more to support our boys in offensive action than it has cost to train and equip them.

That's why Canada needs more money than ever n Our dollars in Victory Bonds are power in the line. Think it over, Son. I believe you'll want to start saving now so you can be ready to buy Victory Bonds this month. The rest of the family wen't les you outdo them in helping to buy victory."

TO HELP YOU SAFEGUARD YOUR WAR SECURITIES

You have made a patriotic investment in Victory Bonds . . . or War Loan Bonds . . . or War Savings Certificates . . . perhaps all three . . . to help your country in the war . . . and to help assure your after-war future.

To enable you to preserve your war securities from danger of loss by fire or theft, Canada's Chartered Banks offer a safekeeping service. Here are the details:

VICTORY BONDS and WAR LOAN BONDS-Take them to your bank ... to any branch of any chartered bank . . . the bank will put them into safekeeping for you, will clip your coupons when the interest falls due, and will deposit the money to your name : . . If you haven't a bank account you can authorize the bank to open one for your convenience.

The total charge for this service and safeksoping is only 25 cents a year on bonds (no mother how many) up to \$250;;; one-tenth of one per cent on amounts over \$250.

WAR SAVINGS CERTIFICATES - You can lodge them also with your bank ... which will take them into safekeeping and for just one small charge cover the whole of the time (or any part of it) from purchase to maturity. Here is all it will cost you — not just for one year — but for 71/2 years:

For a \$	\$.00 cartificate.	 	********	\$0.10
For a \$	10.00 certificate.	 	*********	:15
For a \$	25.00 certificate.	 	*********	`.20

We must face lese facts in '43

THE COST OF WINNING THE WAR is something we can neither escape nor avoid. Victory has to be paid for . . . let us face the price squarely. Canada MUST have Five Billion, Five Hundred Million Dollars for this fourth year of war. Where is this huge sum to come from?

Taxes will yield part of it, but when all taxes are paid we shall still need Two Billion, Seven Hundred and Forty-Eight Millions. And, as a first step towards meeting that need, the minimum cash objective of the Fourth Victory Loan will be One Billion, One Hundred Million

True, leading financial and industrial concerns will take up a large portion of this sum. But the amount left to be met by individual purchasers will be very greatly increased. Two things will be necessary:

(1) The amount purchased by each individual will need to be much greater than in the last Victory Loan, and

(2) There must be participation by many more Canadians in every walk of life. In order to reach even our minimum objective, MORE people must buy MORE bonds.

I realize that it will call for a supreme effort on the part of every Canadian to meet this demand, that the Fourth Victory Loan will be the greatest financial challenge we have ever faced. Yet we dare not falter now. Unswervingly and relentlessly, we must work and save together. For the results of this Fourth Victory Loan will be the inescapable measure of our determination, our unity of purpose, to achieve complete and overwhelming victory.

I know the strength, the discipline, and the united purpose of my fellow-Canadians. I am confident that we can, and will, meet this challenge.

FROM ONTARIO HIGH SCHOOLS ED ON FARMS This Summer FROM all over Ontario, young men in Ontario High Schools and Collegiates are applying to The Farm Cadet Brigade of the Ontario Farm Service Force-volunteering their summers to help produce essential foods for victory. And it's a grand way to put on muscle and build up your weight. After a summer on the farm, you'll come back to school in the fall-hard as nails, brown as an Indian and rarin' to go. You do all the regular work on the farm, and that's an education in itself, but what's more important is that you make one of the greatest contributions to the allied war effort that anyone can make by helping produce food for victory. For certainly, we can't fight if we don't eat.

If you are 15 years of age or older, register now with your High School or Collegiate Principal for work with the Farm Cadet Brigade of

the Farm Service Force this summer. DO IT

GREATEST EFFOR 'S CANADA'S

lend their savings to their country.

This is a costly war. Each year, as our armed forces increase in might, and our output of machines and munitions of war continues to expand, our war costs are multiplied, too. This year, our country will require one billion dollars more to wage the battle of freedom than in 1942. This year, Canada must raise the staggering total of five and one-half billions of dollars.

Never in all history have Canadians faltered in the face of the enemy. Never has the price of freedom been too great a load to bear. And so, with unflinching courage and endurance, Canadians now will continue to put forth an increasing effort until their enemies lay down their arms in complete surrender.

This year, our armed forces will be ready to strike damaging blows against the enemy, Canadians must stand shoulder to shoulder behind the men who face the foe. Every man, woman and child must do his or her utmost. Make your dollars fighting dollars. Back the attack-buy Victory Bonds.

Welcome Your Victory Loan Salesman

> He'll show you how you can play your full part in reaching the 4th Victory Loan Objective of \$1,100,000,000— Canada's greatest financial endeavour

> YOU'LL find that your Victory Loan salesman is a chap worth knowing—a neighbor or certainly a fellow eithen a man with whom you'll have a lot in common—perhaps a son at Dieppe or one who fites a Wellington; or one who rides a pitching Corvette. Above all, you'll find him one who loves Freedom as you do.

> You'll find him an earnest Canadian; a man intent in the cause of Freedom. He asks only that you lend your money to Canadi from your savings and income—that you hay bonds two ways; bonds from realizable cash and more bonds from income over the next six months. He asks that you buy all the bonds you can rather than making a small "token" purchase just so you can say, "I bought a bond."

During the next three weeks, you'll see him working early and late at the greatest, most important financial task in Canada's history. His immediate job will be to help you and fellow Canadians play your full part in reaching the 4th Victory Loan Objective of One-Billion-One!

Welcome your Victory Loan salesman when he calls. Give him every co-operation. Be ready for him and help conserve his time. Buy Victory Bonds "for all you're worth" and hasten the day of Victory and Freedom.

AN OPEN MESSAGE TO DEPOSITORS of the BANK OF MONTREAL

In this time of national emergency our country is making demands of its citizens such as we have never known before-And rightly, for we have never been faced with a crisis such as this war has brought to our doorsteps. ...

You - our depositors - have responded loyally in many ways, and we, at the Bank of Montreal, take particular pride in the splendid way you have bought Victory Bonds. We take pride, too, in the record of service of this Bank to its customers and to Canada. For a period of over 125 years — which has embraced the troublous times of eight wars - our Bank has continued on its steady course, always confident that Canada would win through to a future that would far outshine its record of the past. This faith has always been justified . . . it is still as strong as ever.

Today, in this time of national crisis, we appeal to you to support the nation's war effort by drawing on your savings and earnings to the limit of your capacity to buy Victory Bonds. We shall be glad to place them in safekeeping for you at a very small charge. If you must have cash at any time, Victory Bonds are always acceptable as security for a bank loan and the arrangements are simple and prompt.

Your country needs your help NOW through your support of the Fourth Victory Loan.

"War has at all times called for the fortitude of women...

We, no less than men, bave real and vital work to do."

On Armistice Day, 1939, Queen Elizabeth broadcast these words to a world newly plunged into war.

It was a call to women to put all their courage of mind and heart, all their strength and endurance, at the service of their country in its hour of need. Women of Canada heard . . . and answered.

Every Canadian woman is in a very real sense a warrior working for victory. Whether she serves in the armed forces, in the front lines of industrial production, or taking care of home and family . . . her efforts bring closer the day of victory.

Once again Canadian women are making sure that every dollar is a fighting dollar. By rigorous selfdenial now . . . in order to supply the overwhelming numbers of tanks and guns, ships and planes that will mean the margin of victory for our fighting forces . . , all of us can help to get the job done that much quicker. And when victory is won, Victory Bond savings will enable you to enjoy all the things which are not now available.

This time buy two ways. First, with cash on hand. Second, on the 6-month installment plan, either through your bank or employer. In this way you will be doing YOUR share in helping to put Canada's FOURTH VICTORY LOAN, with an objective of One-Billion-One, over the top!

FOR Canada's fighting sons the ordeal of offensive battle nears "This year", the Prime Minister has said, "all of our forces will be engaged."

When the hour strikes, ample armour, modern machines, munitions, equipment and food must be theirs in plentywith assurance of unending supply—to help preserve their own lives as well as to overwhelm the enemy.

Money is needed for these purposes; much money; more money than Canada has ever asked before; money without stint. In the FOURTH VICTORY LOAN campaign, Canada is asking her citizens for at least \$1,100,000,000.

The Royal Bank of Canada, as a patriotic duty and opportunity, suggests to all its depositors that they buy the New VICTORY BONDS, withdrawing from their bank accounts to do so, straining for the very largest investment that their circumstances will permit.

ONTARIO has done well in her contribution of manpower and resources to the prosecution of the war. Ontario must do still more in providing the sinews of war, by supporting the Fourth Victory Loan to the limit of the ability of every citizen. Our men in the fighting services will give all they have. Our people on the Home Front can do no less.

The Fourth Victory Loan is your opportunity to join with the Navy, the Army, and Air Force in an allout offensive. You cannot be there in person, but your dollars can be there for you, and will provide the materials and munitions so vital to the success of the armed forces.

The Government of Ontario is backing the Loan by the investment of \$5,000,000 in the new Victory Bonds. This is Ontario's official contribution towards strengthening the hands of the Dominion Government in its tremendous task of financing the total war effort that is needed. It is the tangible pledge of the Ontario Government that it will co-operate to the fullest possible extent with the Dominion Government in the drive for final victory.

The action of the Government of Ontario is designed to give practical leadership to all the citizens of the Province, and should be an example and an inspiration to our people to accept this Fourth Victory Loan as a personal challenge to do their part to "Back the Attack" and hasten the day of Victory.

As the old Parish Rector said at the close of the remarkable film, "Mrs. Miniver", "This is the people's war! It is our war. We are the fighters. Fight it, then. Fight it with all that is in us".

We, the people of Ontario, must fight it with our dollars. Your purchases of Victory Bonds will help to send Ontario over the top again in support of our fighting men. They will do their part when the time of attack comes. We must do ours today.

Brush Bristles from a Test Tube?

nds fantastic-but it is a fact.

Modern chemistry has devised a material that makes better brush bristles. It's called nylon monofilament, and when compared with animal and vegetable brush bristles—it's a tremendous step forward.

Nylon monofilament is extruded from nylon polymer, a plastic produced by chemistry from coal, air and water. Nylon bristles are tough, highly resistant to water, chemicals, cleansers, highly resistant to water, chemicals, cleaners, abraivers, they will not split, fay or become brittle. That's why you'll find these brittles in use on many different types of brushes. . Brushes to clean the big guns, brushes for shell fuses, the myriad brushes used by modern industry. Chemistry has even developed upgord brittles for paids brushes. These, so, e. More than likely, your new toodbrush or hairboach has nylon bristles.

Of course, war needs have first call on present production of nylon monofilament bristles, but they are certainly "something to look forward to after the war."

HE EASY WAY

to buy More Victory Bonds

10% Down-Balance on Easy Terms

Victory Bonds are something that everyone in Canada should have. They are the only thing you can buy on the instalment plan with just 10% down payment. You can buy as many as you want for they are not rationed or affected by priorities.

Buying Victory Bonds on the instalment plan is as good as buying a home, a refrigerator, an out-board motor or a car on the instalment plan because it amounts to the same thing in the end. For when these articles are back on the market after the war, you can buy them with the proceeds of your bonds. In the meantime, if you need money in an emergency, you can get cash for them at any

Buying Victory Bonds on the instalment plan is easy. Anyone earning money can do it. For each \$100 bond you wish to buy, make a \$10 down payment when you sign the application with your bank or your Victory Loan salesman. Then you pay the balance on monthly instalments as follows:

> June 1st \$18.00 August 1st July 1st \$18.00 September, 1st \$18.00 October 1st \$18.64

If you have already bought Victory Bonds for cash, buy more bonds-on the instalment plan. If you haven't ready cash to buy your bond-buy on the instalment plan.
